American Railroad Journal.

New York, Saturday, July 26, 1879.

The Chesapeake and Ohio Railway and its Connections.

The following circular has been issued by Mr. C. P. Huntington, President, to the holders of the securities of the Chesapeake and Ohio Railway Company:

The reorganization of the Chesapeake and Ohio Railroad by the purchase of the property on behalf of the bondholders, the incorporation of the present company by the purchasers, and the issue and distribution of its securities in accordance with the plan of reorganization, having been successfully accomplished, it has now become the duty of the officers and directors to call your attention to the necessity of your earnest co-operation in carrying out the measures which are required for the development of the Chesapeake and Ohio Railway to its original design, and which are of vital importance to the success of the company in meeting the obligations incurred in acquiring title to the property, and imparting to its securities the substantial and permanent value which the character, location and natural advantages of its important line of railway fully warrant, and which by timely action on your part may be realized at an early day.

The Chesapeake and Ohio Railway, as now completed and in operation, has its eastern terminus on the James River, at Richmond, Va., and its western terminus on the Ohio River, at Huntington, West Va., the distance between these two points being 423 miles.

It is thoroughly and substantially built, with low grades, light curves and enduring structures, and is surrounded by all the most favorable conditions for the continuous and profitable handling of a large traffic. But to secure that traffic it must have a rail connection with the Western system of roads, and be extended to the deep waters of the Lower Chesapeake.

While the coal, iron, timber and other natural resources with which its route through Virginia and West Virginia abounds are giving it a steadily increasing local business, which will ultimately reach very large proportions, their development must, necessarily, be gradual; and to build up a traffic from these sources alone, without western connections, that will enable the road to earn sufficient to meet its obligations is not probable nor, we may say, possible for years to come.

For this distant result you cannot afford to wait, when, by investing in a good security but a small portion of what the Chesapeake and Ohio securities which you now hold will be benefitted in value by such investment, the desired end may be fully assured, and so much sooner reached.

The plans definitely decided upon as immediately essential, in order to utilize the superior advantages which the Chesapeake and Ohio Railway possesses as a through route from the interior—more especially from the west and southwest—to the seaboard, and to the eastern centers of population and commerce; to realize the original purposes, in view of which it was carried over the Alleghenys to its present terminus on the Ohio River in 1873, and to secure the results above referred to, are:

First.—The completion of the Elizabethtown, Lexington and Big Sandy Railroad through Kentucky, from its present eastern terminus at Mount Sterling to the Big Sandy River, near Huntington, where it will join the Chesapeake and Ohio, and connect it, via Lexington, Ky., and the Louisville, Cincinnati and Lexington Railroad, with Louisville and the west and southwest, and via the Cincinnati Southern and Kentucky Central, with Cincinnati and the northwest, and with points southward to Chattanooga, besides bringing to it a large proportion of the traffic and travel between the fertile and prosperous regions of central and northern Kentucky and the east.

Second.—The extension of the western end of the Chesapeake and Ohio Railway from its present terminus at Huntington to the Big Sandy River, to form a connection with the above, a distance of about seven miles.

Third.—The extension of its eastern terminus to the most convenient and available point on the deep waters of the Chesapeake Bay. At distances varying from 50 to 75 miles, through a level tide water country, either one of several desirable points for this purpose may be reached, where vessels of the largest tonnage can arrive, load and depart with greater facility, economy and saving of time, and where freight can be handled and transferred to and from vessels at less cost, than at any of the shipping ports on the Atlantic Coast, reached by the other trunk lines.

These two terminal extensions will form parts of the Chesapeake and Ohio Railway itself, and can be built by this company within a short time and at moderate cost, as the western connection approaches completion.

The Elizabethtown, Lexington and Big Sandy Railroad Co., is a separate and independent corporation, organized under the laws of Kentucky. Thirty-three and a half miles of its road, from Lexington east to Mount Sterling, were built prior to 1873, at a cost of about $1,200,000, without the creation of any mortgage debt. The distance remaining to be completed is 88½ miles, making, in all, from Lexington to the Big Sandy River, 123 miles.

It is now proposed that this gap, which is all that is lacking to the perfection of one of the most extensive and important systems of railway connections in the country, of which the Chesapeake and Ohio Railway will form the trunk, shall be filled, under conditions which will insure unity and harmony of interest and management between it and the Chesapeake and Ohio.

Responsible parties have recently entered into a contract with the Elizabethtown, Lexington and Big Sandy Railroad Company to complete their road to a junction with the Chesapeake and Ohio Railway at the Big Sandy river, and to receive payment in securities of that company on terms that have been agreed upon as mutually advantageous and satisfactory.

One of the conditions of the contract is, that subscriptions shall be obtained for $1,200,000 of the first mortgage 6 per cent bonds of the Elizabethtown, Lexington and Big Sandy Railroad Company before the commencement of the work. Some complications had grown up between the counties along the line of the road, holding stock of the company, and its eastern stockholders, which were satisfactorily arranged by an agreement that at least $500,000 should be expended upon the road before any of the bonds of the company should be issued. The parties contracting to build the road are prepared to make the required expenditure in advance of the issue of the bonds, and to furnish the additional means necessary for its completion ready for the run-

ning of trains, provided the $1,200,000 of bonds are subscribed for, as above, and upon certain other conditions which will be complied with.

The agreements thus entered into by the railroad company, and by the parties contracting for the completion of the road, will afford to the subscribers to the bonds of the company, before their subscriptions are called for in full, satisfactory assurance that the work will be completed, and the object for which the subscription has been made fully accomplished.

While it is believed that the Elizabethtown, Lexington and Big Sandy Railroad, forming as it does, the connecting link between long lines of railway stretching east and west, whose traffic will be naturally tributary, each to the other, will be a profitable road from the day of its completion; and that the first mortgage bonds of the company will be a safe and desirable investment on their merits, independently of any collateral advantages, it is to the holders of the securities of the Chesapeake and Ohio Railway Company, who have so large and vital an interest in the completion of this link, and whose investment in the bonds will bring them large returns in the increased market value of their Chesapeake and Ohio securities, that the Elizabethtown, Lexington and Big Sandy Railroad Company must mainly look to make up the subscription for the first $1,200,000 of their bonds, upon which the success of the whole plan for the early completion of their road depends.

From an intimate knowledge of the Chesapeake and Ohio Railway, and a careful study of the conditions upon which its success and prosperity depend, the officers of the company are convinced that the value of this connection and its vital importance to your interests cannot be over-estimated.

The work to be done is small in comparison with the miles of finished railway, and the wide extent of country, which it will bring into connection; and the amount of money which it is necessary to raise for the purpose is trifling, in comparison with the millions of dollars of existing interests, the value of which will be so largely enhanced by the completion of the link which will give an all-rail connection over the Chesapeake and Ohio, between the Great West, with its vast productions, and all the cities of the North Atlantic seaboard.

Dayton and Michigan Railroad.

The earnings of the Dayton and Michigan Railroad for the year ending March 31, 1879, were:

From passengers		$239,427 36
" freight		546,041 97
" mail		15,851 40
" express		20,628 42
" rents, real estate		5,094 64
" Toledo elevator		15,553 43
" miscellaneous		2,640 55
		$845,237 77
Expenses, viz:		
Transportation	$523,831 41	
Taxes	50,074 37	
Interest on bonds	188,075 97	
General interest	336 87	
Dividend on preferred stock	99,894 00	
Dividend on common stock	34,974 62	
		897,187 24
Showing a loss to Cincinnati, Hamilton and Dayton R. R. Co., lessees, of		$51,949 47

There was also expended by lessees: for real estate, $1,789 28; new brick building at Toledo, $7,018 57; new passenger depot at Ottawa, $1,591 30; fencing road, $2,264 21—a total of $12,663 36, less $4,670 78 received for machinery sold, making the total advances by lessees $59,942 05.

The Dayton and Michigan Railroad, extending from Dayton to Toledo, 142 miles, was opened for traffic in the Autumn of 1859 and was leased perpetually to the Cincinnati, Hamilton and Dayton Railroad Company May 1, 1863.

The conditions of that lease were that the Cincinnati, Hamilton and Dayton Railroad Company were to operate the Dayton and Michigan Railroad and account to the Dayton and Michigan Railroad Company for all net earnings after paying interest on $3,072,000 mortgage bonds.

The Cincinnati, Hamilton and Dayton Railroad Company guaranteed the interest on said bonds, receiving as a bonus for that guarantee $594,125 in past due coupons on said bonds; also $1,000,000 in the capital stock of the Dayton and Michigan Railroad. This stock, together with that previously subscribed and paid for by the Cincinnati, Hamilton and Dayton Railroad Company to aid in the construction of the Dayton and Michigan Railroad gave to it a majority of all the stock issued, and insured to it a perpetual control of that road.

The coupons above referred to were afterwards converted into second mortgage bonds of the Dayton and Michigan Railroad and sold for the benefit of the Cincinnati, Hamilton and Dayton Railroad Company.

This lease gave the Cincinnati, Hamilton and Dayton Railroad control of the shortest line of road between Cincinnati and Lake Erie, and proved a source of great profit to its stockholders.

In June, 1870, the lease of the Dayton and Michigan Railroad was modified by the Cincinnati, Hamilton and Dayton Railroad Company agreeing to pay the interest on the bonds and preferred stock of the Dayton and Michigan Railroad, and also to pay the interest perpetually at the rate of 8½ per cent per annum, on the common stock of the Dayton and Michigan Railroad not owned by the Cincinnati, Hamilton and Dayton Railroad Company, and any surplus to be retained for the benefit of that company in consideration of this guarantee.

There was then outstanding $1,293,139 21 of such guaranteed common stock. Experience, as is shown in foregoing tables, has proven that the modified lease has not been advantageous to the Cincinnati, Hamilton and Dayton Railroad Company.

Within the past two years the new road from Columbus to Toledo has been an active competitor with this road for all through traffic between Southern Ohio and Michigan, and has had a very injurious effect upon the revenues of this road.

The same may be said of the new road from Richmond, Indiana, through Fort Wayne and Grand Rapids, Michigan, to the Straits of Mackinaw.

On the 24th of January last, the smaller of this company's two grain elevators at Toledo was entirely consumed by fire, caused by the friction of machinery in the roof. The building was valued at $20,000 of which $15,750 was recovered from insurance.

The elevator at the time contained 80,000 bushels of grain, which was the property of individuals, at their risk, and as we are informed was fully insured, and has been paid for.

There has been constructed during the year at the North end of the company's depot property in Toledo a brick building, 60 feet square, for offices, with three rooms for rent. The rents paying over ten per cent on the cost of the buildings, leaving the company fine offices for their use free of cost.

The building heretofore rented and used by this company as a passenger depot at Ottawa was burned, since which a new and commodious brick passenger depot has been constructed by the company on their grounds at that station.

		198,186 60
Showing a deficiency of		$9,738 18

The Cincinnati, Richmond and Chicago Railroad, extending from Hamilton, Ohio, through Eaton, to Richmond, Indiana, 45 miles, was leased by the Cincinnati, Hamilton and Dayton Railroad Company on the 15th day of February, 1869. The terms of this lease are that the lessees are to operate the road on account of the lessors, accounting to them for the balance of net earnings, after paying interest on bonds.

This lease has added considerably to the traffic of the Cincinnati, Hamilton and Dayton Railroad, and has also been the source of a small profit to

the stock, of which the Cincinnati, Hamilton and Dayton Railroad Company own all but 150 shares or $7,500.

		433,508 63
Showing a loss for the year of..		$96,832 93

The Cincinnati, Hamilton and Indianapolis Railroad, extending from Hamilton, Ohio, to Indianapolis, Ind., 93½ miles, has, since December, 1872, been worked in connection with the Cincinnati, Hamilton and Dayton Railroad, under the same general officers. The accounts of each road are kept separate, each road being credited with all its earnings, and charged with its pro rata of the general expenses. The local expenses are all kept separately, and charged to the road for which they are incurred. The money result has been a loss in operating the road during six years and four months of $1,071,203 62 in addition to $689,653 38 advanced by the Cincinnati, Hamilton and Dayton Railroad Company, and expended by the Cincinnati, Hamilton and Indianapolis Railroad Company in the work of construction; that road being in a very incomplete and unserviceable condition at the time this company assumed its control. This shows a total loss to the Cincinnati, Hamilton and Dayton Railroad Company of $1,760,856 40.

Negotiations are now pending with the holders of the bonds of the Cincinnati, Hamilton and Indianapolis Railroad Company for a reduction of the rate of interest on said bonds, and the directors expect to obtain such results as will enable that road, with careful and economical management, to provide substantially for its own interest, and thus relieve the Cincinnati, Hamilton and Dayton Railroad Company from the tax that for the past six years has exhausted its resources.

Oregon Railway and Navigation Company.

The Oregon Railway and Navigation Company, which has just decided to place a loan of $6,000,000 in the market, was organized on the 1st of July, by Western capitalists, and is said to have a capital of $6,000,000. Of this $4,750,000 have been expended in the purchase of the Oregon Steamship Line, which is an ocean line between San Francisco and Portland; the Oregon Steam Navigation Line, which is a steamboat line on the Columbia river, including railroad portages around the Cascades and the Dalles, and the Walla Walla railroad, a narrow gauge road from Wallula, on the Columbia river to Walla Walla, in Washington Territory. The new bonds bear interest at 6 per cent and run 30 years. Their proceeds are to be used to extend the Walla Walla Railroad and to construct new narrow lines for the development of Eastern Oregon and Washington Territory.

☞ The Kentucky Division of the St. Louis and Southeastern railroad was sold at Louisville on the 19th inst. by order of the United States Court, realizing $1,000,000 for the road and $56,630 for the rolling stock and other property. The Louisville and Nashville Railroad Company, which holds nineteen twentieths of the bonds of the road, was the purchaser. The property sold consisted of two tracts of land in Henderson, occupied by the depots and yards of the road; the tracks from the Ohio River, south, to the Tennessee line; the rolling stock of the road, including nine locomotives, six passenger cars, three baggage cars, and 264 freight cars; all franchises, privileges, and immunities of the company.

☞ The Baltimore County Union says P. H. Macgill, Herman Simon and James Burkhead, Jr., of Baltimore, accompanied by a civil engineer of the Baltimore and Potomac railroad, have prospected a route from near Carrollton, Baltimore county, to Ellicott, with a view of establishing a branch road to the latter place via Catonsville. The exact route has not been definitely located. Their action was based, it is understood, upon a liberal offer of ex-Gov. Bowie, president of the Baltimore and Potomac railroad, to lay the track and equip the road if the other parties interested would secure the right of way and grade the road bed.

Southern Railroad of Long Island.

The Southern Railroad of Long Island was sold on the 22d inst. at auction at Jamaica, L. I., under foreclosure of the first mortgage for $500,000, and was bought in by Mr. Egisto P. Fabbri, of the firm of Drexel, Morgan & Co., for $125,000. The road was sold on the 10th of June under foreclosure of a second mortgage for $2,000,000, and was bought by J. P. Wallace for the bondholders for $760,000. The road extends from Hunter's Point to Patchogue and has branches to Hempstead, Far Rockaway and Rockaway, and the company has a franchise to extend the road to Sag Harbor from Patchogue. The road came into the possession of the Poppenhusens in 1874, when it was sold under foreclosure of a mortgage for $1,500,000, under which the trustees were Henry Wyckoff and Elbert Floyd-Jones. Its name was then changed from Southside to Southern. A short time afterwards they mortgaged it for $500,000, the trustees being John D. Jones and William Nicoll. Interest on this mortgage is due since March, 1877. By this last sale all claims against the road are shut out.

Grand Trunk Railway of Canada.

The gross earnings, working expenses, and net profit of the Grand Trunk Railway of Canada for the month of May, 1878 and 1879 were:

	1879.	1878.
Gross receipts.....	£135,434	£140,690
Working expenses.....	98,354	106,858
Net profit.....	£37,080	£33,832

—showing a decrease in gross receipts of £5,256, with a decrease in working expenses of £8,504, making the increase in net profit £3,248.

The aggregate for five months from January 1 to May 31, 1878 and 1879 was:

	1879.	1878.
Gross receipts.....	£708,112	£744,101
Working expenses.....	560,521	579,509
Net profit.....	£147,591	£164,592

—showing a decrease in gross receipts of £35,989, in working expenses of £18,988, and in net profit of £17,001.

☞ A certificate of incorporation has been filed in the office of the Secretary of State of Ohio, by D. D. Miller and others, of the Baltimore and Chicago Railroad Company. The termini are: State line in Columbiana county and Chicago junction in Huron county, passing through the counties of Columbiana, Stark, Carroll, Tuscarawas, Wayne, Ashland and Huron. Capital, $300,000, in shares of $50 each.

☞ The Oregon Railroad and Navigation Company has executed a mortgage for six millions of dollars to the Farmers' Loan and Trust Company of New York, as trustees, for a like amount loaned to the former company, which will be used to extend their lines.

☞ The Philadelphia and Reading Railroad connection, between Wayne Station on the Germantown branch and Tabor Station on the North Pennsylvania Railroad, will be ready for the rails about August 1.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Quarters (¾) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Quebec, Montreal, Ottawa and Occidental Railroad.

The General Superintendent of the Western Division of the Quebec, Montreal, Ottawa and Occidental Railroad has just issued a report of the working of the line for the half year ending 28th February. The total number of passengers carried was 48,203, and the receipts for the same amounted to $64,002 or $1 32¾ cents per passenger. The freight tonnage was 30,342, yielding a revenue of $41,280 or $1 56 per ton. The total receipts, including mails, express, etc., are $110,865, and the cost of running $69,216, which leaves the net earnings $41,649, equal to 37.57 per cent of the gross earnings. It is expected that the terminus at Ottawa and the station at Montreal will both be moved nearer the cities before the autumn.

Statement of the Public Debt of the United States, July 1, 1879.

Totals	$64,623,512 00	$1,938,705 36

Interest paid by United States, $41,773,745 22; interest repaid by transportation of mails, &c., $12,596,053 39; balance of interest paid by United States, $29,177,691 83.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, June 30, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

*Interest-bearing debt	$1,901,716,110 00
Less amount of called bonds, not matured, for which 4 per cent. bonds have been issued, and for the redemption of which this amount of cash is on deposit in the various national-bank depositories	104,072,410 00
Actual interest-bearing debt	$1,797,643,700 00

☞ A dispatch from Davenport, Iowa, says that the Davenport and Northwestern Railroad, which runs from Davenport to Fayette and from Davenport to Maquoketa, in all 140 miles, will pass into the hands of the Milwaukee and St. Paul Railway Company on the 1st of August.

☞ It is stated that all the judgments against the Lehigh and Wilkesbarre Coal Company have been recently discharged of record. One of these judgments was for about $1,500,000.

☞ The Portland Press says the earnings of the Maine Central Railroad Company for the last six months are $50,000 greater than for the corresponding period in 1878, with probabilities of a still larger proportionate increase for the remainder of the year.

☞ The Western extension of the Walla Walla Railroad is being rapidly pushed forward.

Philadelphia Stock Exchange.

American Railroad Journal.

Saturday, July 26, 1879.

Financial and Commercial Affairs.

A faitly active business has been reported in most lines during the week, or, however, unsettled and fluctuating markets. Weather and crop advices from domestic sources have been, as a rule, encouraging; while from Western Europe of an unfavorable tenor. Foreign markets, as represented by cable, have shown continued prostration and more or less serious disturbance and depression in commercial and industrial interests. Money at London was in extraordinarily liberal supply, through the difficulty of finding secure employment for accumulations, even at the unusually low quotations, which, though at the Bank of England maintained at the previons figure of 2 per cent, in the current outside negotiations, were under one per cent per annum. Bond and stock values were generally buoyant, as affected, in good part, by the remarkable and protracted ease in Money. In our own local market, Money has been quite plenty, but has been in more request, chiefly on speculative account, thus enabling lenders to place their balances more advantageously. Call loans have been quoted at 1½@4, generally at 2½@3 per cent, on the pledge of satisfactory Stock or mixed collaterals, and best discounts at 3@5 per cent per annum. The U. S. Sub-Treasury now holds a coin reserve of $127,241,230, (a gain for the week of $521,091), and a currency balance of $35,246,611 (a reduction for the week of $4,380,120.) The City Bank exhibit of last week indicated a decrease in the loan and discount average of $232,100, and an increase in the item of circulation of $2[illegible],700. The average of deposits was reduced $1,174,500,

The legal tender reserve was cut down $793,000, and the specie average was augmented $40,200. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $10,482,-025, or a falling off for the week of $459.175. The City bank exchanges in currency reached $481,-691,657, or a daily average of $80,282,000.

The offerings of Foreign Exchange have been quite liberal, leading to increased depression, the demand having been on a very moderate scale. Bankers' sixty day bills on London closed at $4 83¾@$4 85; sight bills on London at $4 85½@$4 87 to the £ sterling. Cable transfers, $4 86@$4 87½, showing a sharp decline. The specie outflow last week was only $157,598—making the total exports of specie hence since January 1, 1879, $11,-491,598 against $8,886,060 the same time in the preceding year. The imports of specie at this port last week were to the amount of $240,160, and since January 1, 1879, have been $5,998,664 against $13,730,420 same time in the preceding year. The Customs drain for gold in the local market reached $2,031,979 or an average of about $338,829 per day. The week's imports of Dry Goods and general merchandise were to the specie value of $7,533,843 (of which $2,328,040 of Dry Goods), as against $5,940,840 the corresponding week of 1878. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $6,748,315 against $7,018,-127 same week 1878, making the total exports of produce since January 1 this year $176,500,-929, against $189,593,915 same period in 1878.

Dealings in Government Securities have been on an extensive scale, chiefly on investment account, and have been quoted a trifle stronger, leaving off in favor of holders, on comparatively moderate offerings of most of the outstanding interest bearing obligations. The new four per cent refunding Loan continues in high favor with purchasers, and closed buoyantly at advanced figures. At the close on Wednesday the current quotations were as follows:

United States currency 6s, 122@125; do. 6s, 1880, registered, 104¼@104½; do. coupon, 104¼@104⅜; 6s, 1881, registered, 104¾@105; do. coupon, 104¾@104⅞; 5 per cents, 1881, registered, 102⅞@103⅛; do. coupon 104⅛@104¼; 4½ per cents, 1891, registered, 106⅛@106¼; do. coupon, 106⅛@106¼; 4 per cents, 1907, reg., 102⅛@102¼; do. coupon, 102⅛@102¼.

The amount of United States bonds deposited with the U. S. Treasurer at Washington for circulation during the week was $1,503,200. And of United States bonds held for circulation withdrawn during the week $2,777,200. The Treasury Department now holds $353,189,700 in United States bonds to secure the outstanding national bank circulation. The National bank circulation is now $328,189,332 of currency notes and $1,-467,500 of national gold bank notes National Bank notes received at the Treasury Department last week for redemption were to the amount of $2,087,000.

A generally strong market has been reported for the favorite State Loans, which have been in more request, chiefly for investment purposes, on a comparatively moderate offering. Railway Mortgages have been attracting a very liberal share of attention and further important purchases of the more popular issues have been made, on investment account, at much higher and generally buoyant prices, though fluctuations have been frequent and, in instances, wide. Railway and Miscellaneous share property has been quite active and through the first half of the week quoted decidedly stronger favored by the remarkable ease in Money.

Toward the close values weakened more or less notably, as influenced, in part, by a pressure to sell, with a view to the realization of profits, under the recent rise, and, in part, to purely speculative manipulation. The business as officially reported, which on Wednesday of last week was about 128,000 shares, reached on Thursday about 194,000 shares, fell on Friday to 177,000 shares rallying on Saturday to 192,000 shares and on Monday of the current week falling back to 172,-000 shares, followed on Tuesday by an aggregate of 163,000 shares. Renewed reports of the prevalence of Yellow Fever at the Southwest had an adverse bearing on the general market. With, however, the assurance of a prolific harvest at home, and the probability of an unusually liberal foreign demand for our surplus of food supplies, confidence is strong in an early revival of firmness and buoyancy, which the easy working of the Money market must facilitate.

At the Baltimore Stock Exchange on Wednesday Virginia bonds were very active and prices were higher, though the variations were slight. Consols sold at 57½@57¾ for large and 57½@58 for small bonds, ¼@⅜ advance. Tax coupons sold at 79¾ to 80⅜, closing 80¼@80⅜ against 79¾@79⅞ on Tuesday, and 10-40s sold at 50¼, ¼ advance. Peelers were nominally 31@32, and Peeler coupons 14@16. Baltimore and Ohio stock was again lower and sold at 118 and 117. Mariettas were weak at the first session, but recovered at the second and went out firm, with full prices bid. Manassas 7s were weak and closed offered at 67 asked, without bidders. Orange and Alexandrias sold at 100 for firsts and 95⅝ for seconds, in small amounts, and closed nominal. Canton 6s sold at 102, and closed firmer at that figure bid. Atlantic Coal was 75@80 cents per share.

In the Produce and Merchandise lines, considerable activity has been reported, on, however, a variable market. Breadstuffs have been less freely dealt in, even on speculative account, and prices have been unsettled, closing, as a rule, lower. The speculative control of the Wheat interest, so long and successfully maintained, was summarily relaxed, early in the week, by the partial closing out of the accumulations, in the hands of the speculative combination. Provisions have been in fair demand but at irregular prices, closing weak.

Business in Cotton has been somewhat brisker but at lower and variable prices. Early deliveries left off barely steady. Low Middlings closed for prompt delivery at 11 5-16@11 7-16; Middlings at 11⅝@11¾. Options left off for July basis of Middling at 11.50; August at 11.52@11.53; September at 11.52@11.53; October at 10.90@10.91; November at 10 64@10.65; December at 10.61@10.62; January at 10.64@10.66; February, 10.74@10.79; March, 10.86@10.90.

Naval stores have been quite moderately sought after at about former quotations. Petroleum has been comparatively dull, closing weak. Offerings of stock have been almost wholly for forward delivery. Foreign merchandise has been attracting less attention, yet has been quoted about steady. Metals have been in more demand, and values of the leading kinds have shown decided firmness. Rails have been purchased quite freely at full prices.

A much stronger market has been reported in the line of Ocean freights on a reduced offering of accommodation on berth and charter, and a more urgent inquiry, especially from the Grain trade and largely for Autumn loading.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—United States currency 6s, 1898, 124; Chesapeake and Ohio R. R., 8; do. 1st pref., 13⅛; do. 1st mort., Series B, 45; do. cur. int. def., 22¼; do. p. m. f. bonds, 100; Lehigh and Wilkesbarre consol. ass., 79; do. Pennsylvania Railroad.

The statement of the business of all the lines of the Pennsylvania Railroad Company east of Pittsburg and Erie, for June, 1879, as compared with the same month in 1878, shows

An increase in gross earnings of....	$10,610
An increase in expenses of....	313,949
A decrease in net earnings of....	$303,339

The six months of 1879, as compared with the same period in 1878, show

An increase in gross earnings of.....	$962,121
An increase in expenses of....	462,363
An increase in net earnings of.....	$499,758

All lines west of Pittsburg and Erie for the six months of 1879 show a deficiency in meeting liabilities of $205,752, being a gain over the same period in 1878 of $43,516.

The Philadelphia and Erie Railroad Company make the following exhibit of business for the month of June, 1879:

Gross earnings	$211,545 29
Gross expenses....	200,492 89
Net earnings..	$11,052 34
Net earnings six months of 1879.....	$348,821 54
Net earnings six months of 1878.....	317,821 43
Increase	$30,291 11

☞ At a meeting of the Southeastern Railway Company, held in Montreal on the 20th inst., the following officers were elected: Hon. Bradley Barlow, President and General Manager; James C. Halloran, Vice President; A. B. Chaffee, Secretary; C. W. Foster, Auditor; E. L. Pettes, A. G. Safford, A. P. Cross, Hon. Bradley Barlow, James O. Halloran and A. B. Chaffee, Executive Committee. Hon. Bradley Barlow appointed M. A. Alden Superintendent in place of J. Dodsworth.

☞ The gross earnings of the Great Western Railway of Canada for the month of May, 1879, (excluding leased lines) were $287,400, the expenses $243,900, and the net earnings $43,500; for the month of May, 1878, the earnings were $305,800, the expenses $254,900, and the net earnings $50,900—showing a decrease in gross earnings of $18,400, in expenses of $11,000, and net earnings of $7,400.

☞ The gap between the two ends of the track of the Cincinnati Southern has now been reduced to less than 40 miles, and the grading is nearly all done on this. At last report the track had reached to Burnt Field viaduct, Kentucky, 27 miles south of Somerset and 180 miles south of Cincinnati, and had been extended from Boycis station, where the track of the Western Atlantic road is entered upon, northward to Rockwood about 70 miles.

☞ Mr. James P. Scott, a son of Colonel Thomas A. Scott, President of the Pennsylvania Railroad Company, has been appointed assistant to the President of the Texas and Pacific Railroad Company, with headquarters at Marshall, Texas.

The Oil Trade.

Stowell's Reporter, for July, gives the following figures in regard to the oil trade for the month of June:

The number of producing wells at the close of June was 11,223, being an increase of 176. The number of drilling wells completed in June was 330, against 402 in May. The number of drilling wells was 384, being less than in May, 76. The number of rigs up was 361, being a decrease in June of 39. The number of dry holes developed was 15, being an increase in June of 7. The total production in June, 1,653,150 barrels. Daily average for the month, 55,105 barrels. Daily average increase in June, 2,793 barrels. The average daily production of the new wells in June was 25.3 barrels. The average daily production of all the wells for the month was 4.9 barrels.

The shipments for June aggregated 1,369,314 barrels, included in which were 182,201 barrels of refined from Titusville and Oil City, which is equal to 273,302 barrels of crude.

The stock in the producing regions has been increased during the month, 283,836 barrels, making the total stock at the close of the month, 7,240,650 barrels.

Debts of the Southern States.

From the Nashville (Tenn.) American, July 18.

Numerous inquiries as to the debts of other Southern States, their amounts, and compromises made, will be best answered by giving all the information we possess on the subject:

Alabama—debt in 1878, $9,452,669; real and personal estate, tax basis, $117,486,581; tax, 70 cents; amount raised by tax, $827,399.

Arkansas—debt, $4,153,035; unfunded debt, $13,967,012; tax basis, $94,000,000; tax, 60 cents; amount raised by tax, $457,450.

Florida—debt, $1,348,272; tax basis, $30,000,000; tax, 90 cents; amount raised by taxation, $225,000.

Georgia—debt, $10,644,500; tax basis, $235,659,530; tax, 50 cents; amount raised by tax, $1,129,990. In 1872 Georgia annulled $10,477,000 clearly fraudulent bonds, leaving the debt at that time $11,550,500, recognizing $5,798,000 of the Bullock bonds.

Kentucky—debt, $1,852,841; tax basis, $357,326,013; tax, 40 cents.

Louisiana—debt in 1878 amounted to $12,660,443; tax basis, $174,500,000; tax, $1 45. The amount raised by taxation in 1878 was $2,473,629.

Mississippi—debt, $2,954,458; tax, 50 cents; tax basis, $127,000,000; amount raised by taxation, $634,701.

Missouri—debt in 1879, $16,758,000; tax basis, real and personal, a little over $6,000,000; tax, 40 cents; amount raised by taxation, $2,843,953.

North Carolina—debt in 1878, $27,120,228; tax basis, a little over $148,000,000; tax, 38 cents; amount raised by taxation in 1878, $533,635.

South Carolina—debt in 1878, $6 739 696; tax basis, a little over $125,000,000; tax, 45 cents; amount raised by taxation, $715,982. The debt statement in 1874 was $17,017,651, of which $9,540,750 was bond debt; $2,679,393 floating debt, and $4,797,608 contingent liability, and this statement did not include $5,695,000 bonds issued for conversion of State securities under act of 1869, which even a Republican Legislature declared issued without authority. The amount given as the debt in 1878 is that left after a fair judicial investigation by a court created for that purpose.

Texas—debt in 1878, $5,073,861; tax basis, $257,632,009; tax, 50 cents; amount raised by tax, $1,356,170.

Virginia—debt in 1878, $29,350,826, tax basis, real and personal, $322,569,631; tax, 50 cents; amount raised by tax, $2,500,000 per annum. Since that time a settlement has been proposed which is absolutely demanded by inability to pay. We have not the details of that settlement at hand, but it is much more favorable to the holders of the bonds than that of Tennessee.

Tennessee—debt and interest, $24,857,115, the debt as scaled will amount to a little over $12,000,000, the interest to about $500,000, requiring a tax of less than 35 cents on the $100, in addition to the amounts from other sources, such as privileges and the $100,000 from railroads, to pay this and ordinary expenses. The tax basis in 1878 was $223,212,153, and the amount raised in 1878 was $622,529.

It will be seen at once from this that Tennessee will bear after this settlement lighter burdens than any Southern State, even after Louisiana secures her reduction of interest to 3 per cent for 15 years, leaving the principal intact. The question pertains to ourselves solely. What is right, just, and the best policy for ourselves is the sole question; but if any one chooses to look to other States for light he will find that everything points out the reception of this settlement as the best possible course to take.

Mining Profits.

We hear but little now a days of the Black Hills compared with the fever of two and three years ago. But the mines of Dacotah are making good results for their stockholders as the dividend notice of the Great Eastern Gold Mining Company in our advertising columns this week shows. Moreover this is a New York Company essentially, with Postmaster T. L. James for president, and J. D. Smith of the well-known banking firm of Jameson, Smith & Cotting for vice president. Dividends are always more satisfactory than assessments.

An assay of ore from the mine of the Gouldsboro' Silver Mining Company, Maine, made last week in the United States assay office, New York, showed 236 ounces of silver, equal to about $273 per ton, and 30 per cent of lead. The value of the lead will pay for the mining and smelting of the ore, leaving the silver net profit. There are six regularly organized mining companies, with an aggregate capital of $2,250,000 now at work in Bluehill.

A letter to the Washington Herald says that the new shaft, (No. 4) sunk in the New Discovery Mine, on the Little Pittsburg Consolidated property at Leadville, has struck a new body of ore, assaying 494 ounces to the ton in some cases, or $500 net. The fourth dividend of $100,000 a month was earned in 17 days, merely in development, and without a particle of stoping.

The Landaff Gold Mining Company of New Hampshire cleared up on the 18th inst. at their large mill in Bath, and found they are running $11 a ton, which leaves a clear profit of $6 a ton, the working costing $5. There is greater activity in mining in that section than ever before. Wm. Lawry of Newburyport, Mass., has just completed and is now working a new mill in Lyman, N. H., and has machinery ready for a second mill. It is expected that other mills will soon be built.

The following dividends have been declared, payable in Boston on the respective dates: Independence Mining Company 25 cents, July 21; Argenta Mining Company 20 cents, July 25; Martin White Mining Company 30 cents, July 28.

The Bodie Mining Company has declared a dividend of $1 per share. This is the first dividend from the new ore body.

A valuable silver lode has been discovered at Acton, York county, Me., which bids fair to become of great value. It is some three or four miles long and from four to eight feet in width. The ore is argentiferous galena, assaying from $20 to $800 per ton. Several claims have been sold at prices ranging from $2,000 to $10,000 per each 500 feet in length.

The Osceola Consolidated Mining Company has declared a dividend of $1 50 per share, payable Aug. 15.

Advices from St. Domingo to the 12th instant report that work on the newly-discovered gold mines will probably begin in October or November on a large scale. It is expected that ten thousand laborers will be employed. The company formed to work the mines have received liberal concessions from the Government.

During the last six months iron ore receipts at Pittsburg have increased 40 092 tons, pig iron 29,734 tons, blooms and billets, 3,734 tons.

Houston and Texas Central Railway.

The following is a comparative statement of the earnings and expenses for the years ending April 30, 1878 and 1879:

	1878.	1879.
Earnings	$2,668,017 45	$3,031,631 83
Expenses (including taxes)	1,737,975 28	1,704,725 76
Net	$930,042 17	$1,326,906 07

—showing an increase in gross earnings of $363,614 38, a decrease in expenses of $33,249 52, and an increase in net earnings of $396,863 90.

☞ The Newark Advertiser says that the New Jersey Southern Railroad was reorganized at Freehold on the 15th inst. by the election of a Board of Directors in the interest of the Central Railroad Company of New Jersey, which now holds the control of it through an arrangement with the holders of the first mortgage bonds. At the recent foreclosure sale they bought the property and have now completed the transfer to the same parties that control the all-rail route to Long Branch, so that both lines are now under the same management and passenger tickets are good on either.

☞ The West Jersey Ferry Company have entered into a contract with the Harlan & Hollingsworth Co., of Wilmington, Del., for the building of a new iron-hulled ferry boat. The steamer is to be completed by the first of December. Its model will be the same as the Columbia, but in dimensions five feet longer. It will be finished in superb style, and more powerful than any ferry boat on the river, having a cylinder of three feet four inches. It will be built with a special view to power, and its effectiveness in the ice when the river is blocked.

☞ The construction of the New York City and Northern Railroad is completed, with the exception of some ballasting, as far north as Ashford. A large force of laborers is at work and it is expected that the road will be opened for public travel to Lake Mahopac by the middle or latter part of September. As the road will pass through the great milk producing sections of Westchester and Putnam counties the farmers are anxiously looking forward to its opening.

☞ The Woodstock Iron Co., Anniston, Ala. are running full hands and are increasing their facilities, having just erected large Thirty Ton Track Scales, also two Eight Ton Scales and Six Beam Furnace Charging Scales, all of the Philadelphia Scale Works of Richie' Bros.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending July 12, as reported by the several carrying companies, amounted to 531,635 tons, against 292,022 tons in the corresponding week last year, an increase of 239,613 tons. The total amount of anthracite mined for the year is 12,720,038 tons, against 7,822,040 for the same period last year, an increase of 5,897,998 tons. The quantity of bituminous coal sent to market for the week amounted to 75,611 tons, against 72,749 tons in corresponding week last year, an increase of 2,862 tons. The total amount of bituminous mined for the year is 2,274,695 tons, against 1,561,901 tons for corresponding period last year, an increase of 712,794 tons. The total tonnage of all kinds of coal for the week is 607,246 tons, against 364,771 tons in corresponding week last year, an increase of 242,745 tons, and the total tonnage for the coal year is 14,994,733 tons, against 8,783,941 tons to same date last year, an increase of 6,110,792 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of July was 90,760 tons, of which 68,501 tons were coal, and 22,259 tons coke. The total tonnage for the year thus far has been 2,909,524 tons, of which 2,219,544 tons were coal and 679,980 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ending July 12th were 39,226 tons, and for the year to that date 781,326 tons, an increase of 60,046 tons as compared with the corresponding period of 1878. The shipments to the Baltimore and Ohio Railroad for the week were 19,938 tons, for the year 468,226 tons, an increase of 40,045 tons, as compared with 1878. The shipments by the Chesapeake and Ohio Canal for the week were 16,218 tons, and for the season 228,208 tons, a decrease of 18,398 tons as compared with last year. The shipments to the Pennsylvania Railroad were, for the week, 3,069 tons, for the year 84,892 tons, an increase of 32,299 tons as compared with 1878. The Reading Railroad Company reports a coal shipment for the week ending on Saturday evening last of 176,300 tons, of which 69,500 tons were sent to Port Richmond, and 62,500 tons were shipped thence. The receipts of coal at Perth Amboy during the week ending July 14 were 32,431 tons, and the shipments 38,109 tons, leaving on hand 113,332 tons, compared with 34,524 tons at the same date last year.—*Phila. Ledger, July 21st.*

Elizabethtown, Lexington and Big Sandy Railroad.

Mr. A. L. Reid, President of the Elizabethtown, Lexington and Big Sandy Railroad Company, whose office is at No. 9 Nassau St., this city, has issued a circular from which we make the following extracts:

The Elizabethtown, Lexington and Big Sandy Railroad Company is a corporation chartered in Kentucky to construct, maintain and operate a line of railroad between the Big Sandy River, at its confluence with the Ohio, and the cities named in the title.

At the Big Sandy which forms the boundary line of Kentucky and West Virginia, it will connect with the Chesapeake and Ohio Railway, leading to Richmond, and the tidal waters of the Chesapeake Bay.

At Lexington connection will be made with the Louisville, Cincinnati and Lexington Railway, leading to Louisville and points further west and south; also, with the Cincinnati Southern for Chattanooga and points beyond in the south and southwest, as well as northward to Cincinnati and beyond, also with the Kentucky Central Railroad for Cincinnati, Maysville and intermediate points in Kentucky.

Thirty-three and a half miles of the road are built and in operation from Lexington, eastward to Mount Sterling.

It is now proposed to complete the road to the Big Sandy River, and thereby establish continuous direct connection between the railroad system of the Virginias and that of Kentucky, and open a new and more advantageous outlet to the seaboard than now exists, for the products of the southern and western portions of the Ohio Valley, and the States bordering on the Mississippi River.

The length of road to be built is 88½ miles. Its route lies through a thriving, settled country, and nothing in the character of the work prevents it from being completed within one year.

The resources of the company for construction are as follows:

Capital Stock, other than that issued to counties, towns and others, say $3,000,000.

First Mortgage Bonds.—The company is authorized to issue $3,500,000, in its First Mortgage, thirty year, six per cent bonds, of which $1,000,000 will be reserved for equipment and other purposes, leaving available for new construction, $2,500,000.

Aid Bonds.—The company is to receive $50,000 in bonds from each of the counties of Clark and Montgomery when trains of cars run between Lexington and the Big Sandy River.

Much of the right of way has been secured and it is believed that the remainder will be donated as the owners of land along the line will not be likely to hesitate in granting the right of way for an improvement that must so largely benefit them.

There is reason to expect that the local traffic, legitimately tributary to this road, when completed will, of itself, yield sufficient income to meet the interest on the entire issue of First Mortgage Bonds, without reckoning on the certainty that, forming as it does, the connecting link between important systems of railway already existing, it must command a large through business besides.

Taking Lexington as the common center, as it will be for a vast area around it westward and particularly southwestward, the following will show the advantage in distance the Big Sandy route will have over the more northerly trunk lines to the Atlantic ports:

	Miles.
Lexington to New York, via Lake Shore & N. Y. C. R. R.	982
Lexington to New York, via A. & G. W. & Erie R. R.	960
Lexington to Philadelphia, via Pennsylvania Railroad	767
Lexington to Baltimore, via Baltimore & Ohio Railroad	688
Lexington to Richmond, via B. S. & Chesapeake & Ohio	550

Difference in favor of the Big Sandy route 138 to 432 miles.

Between Louisville and Washington nearly the same advantage in distance exists.

In order that the Chesapeake and Ohio Railway, in view of the establishment of this connection, may improve its decided advantages, as compared with the other trunk lines, both in respect to distance from the chief markets of the west and southwest, and to terminal facilities and accessibility to ocean navigation, it has been decided by that company to extend its eastern terminus to a point on the deep waters of the Chesapeake Bay nearly opposite to and not very far distant from the outlet, where its harbor and transfer privileges will be without rival; so that by this route shipments will not only have the advantage of the shortest haul by rail, but can be more economically transferred to shipboard than at any of the other trunk line ports, and as near the main ocean as at New York, 100 miles nearer than at Philadelphia, and 160 miles nearer than at Baltimore; and at the same time both the route itself, and its terminal waters, will be always free from ice and winter rigors.

This company has recently contracted with responsible parties for the completion of its important line of road. The work is to be commenced at once, and the party contracting to build it is to receive payment in the securities of this company, on condition that $1,200,000 of its first mortgage bonds shall be subscribed for at not less than 97½ per cent.

Rich Stock Speculations.

The buoyant condition of the Stock Market during the present summer season—a time when general lassitude is usual—is quite remarkable, and the firm tone and fair prices in the standard Railroad stocks is a matter of congratulation. Among the most prominent of the successful movements of the market, are those connected with the combination plan of Messrs. Lawrence & Co., No. 57 Exchange Place, New York. Thousands of investors, in all parts of the country, have thus made handsome profits; $100 returning $678, $500 yielding $4,792, $1,000 giving a net gain of $6,110 13, etc., according to the condition of the market. Shares of from $100 to $1,000 can be taken in combinations constantly forming, the profits being divided pro-rata every thirty days. Investors thus have the benefits accruing to the largest operators, and the aggregate amounts massed in one sum, is manipulated by the ripest experience and best skill in the metropolis. The remarkable success of the combination plan is the topic of general admiration in the financial circles of the country.

☞ The stockholders of the St. Louis and San Francisco Railway Company have approved the purchase of the Missouri and Western Railroad and also the building of the St. Louis, Wichita and Western Railroad, a distance of 140 miles, from Oswego to Wichita, Kansas. This will connect the St. Louis and San Francisco Railroad with the Atchison, Topeka and Santa Fe at Wichita, and give the St. Louis and San Francisco a line of 600 miles of road, (or equal to 224 miles of new road) through a rich agricultural and mineral region. The Missouri and Western Railroad is already completed, equipped and in operation, and ample funds have been subscribed for building and equipping the 140 miles of road from Oswego to Wichita.

☞ At a meeting of the Directors of the St, Paul and Duluth Railroad Company in Philadelphia on the 17th inst., David Dows, R. P. Flower, Jeremiah Milbank and Peter Geddes, of New York were elected directors; these, with John P. Ilsley, president, and William H. Rhawn, vice president, of Philadelphia; James Smith, Jr., and John Q. Adams, of St. Paul, and Charles H. Graves, of Duluth, constitute the present Board.

☞ Letters to the Boston Journal state that the extension of the St. Louis, Kansas City and Northern Railroad from Patterson to Omaha is fast approaching completion. The grading has been finished and the laying of the track has been begun. This link will give the Wabash line direct connection with Omaha, and it is to be called the St. Louis and Omaha Railroad.

☞ C. Leinenweber has been elected President, J. Q. A. Bowlby Vice President, E. E. Holden Secretary and I. W. Case Treasurer of the Astoria and Winnemucca Railroad Company. One half the capital stock has been subscribed. A survey between Astoria and Forest Grove will commence in a few days. The office of the company is at Astoria, Oregon.

☞ It is reported in Montreal that the Canada Central Railroad Company has sold to a syndicate of New York and London bankers its entire issue of first mortgage bonds, amounting to £500,000. The interest on the bonds is guaranteed by the Dominion of Canada.

☞ The official announcement is made that hereafter the Western Union Railroad and its branches will be operated directly by the Chicago, Milwaukee and St. Paul Railway Company, and will be known as the Racine and Southwestern Division of that line.

☞ The freight and passenger earnings of the Ogdensburg and Lake Champlain Railroad for the month of June were $35,870 36, against $35,054 37 for the month of June, 1878—an increase of $815 99.

OFFICE OF THE GREAT EASTERN GOLD MINING COMPANY,
No. 31 Broad street,
New York, July 18, 1879.

The trustees of this company have this day declared a dividend of ONE PER CENT. upon the capital stock, payable on and after August 1, at the office of the company.

Transfer books close on 25th instant and reopen on 2d August. SILAS C. HAY, Secretary.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY COMPANY,
TREASURER'S OFFICE, GRAND CENTRAL DEPOT,
NEW YORK, June 19, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of TWO AND ONE-HALF PER CENT. upon its CAPITAL STOCK, payable on the 1st day of August next, at this office.

The transfer-books will be closed at 3 o'clock P. M. on SATURDAY, the 28th inst., and will be reopened on the morning of WEDNESDAY, the 6th day of August next. E. D. WORCESTER, Treasurer.

The investigation of frauds on Railway Companies a specialty

☞ At the annual election of the Central Pacific Railroad Company, held in San Francisco on the 22d inst., the following gentlemen were chosen directors: Leland Stanford, C. P. Huntington, Charles Crocker, E. H. Miller, Jr., E. W. Hopkins, Charles W. Crocker and W. V. Huntington. The officers are: President, Leland Stanford; Vice President, C. P. Huntington; Second Vice President, Charles Crocker; Secretary, E. H. Miller, Jr.; Treasurer, E. W. Hopkins.

Pacific Railway Tenders.

TENDERS for the construction of about one hundred miles of Railway, West of Red River, in the Province of Manitoba, will be received by the undersigned until noon on Friday, 1st August next.

The Railway will commence at Winnipeg, and run North-westerly to connect with the main line in the neighborhood of the 4th base line, and thence Westerly between Portage la Prairie and Lake Manitoba.

Tenders must be on the printed form, which, with all other information, may be had at the Pacific Railway Engineer's Offices, in Ottawa and Winnipeg.

F. BRAUN,
Secretary.

Department of Railways and Canals,
OTTAWA, 16th June, 1879.

A GOOD PLAN

Anybody can learn to make money rapidly operating in Stocks, by the "Two Unerring Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and *co-operated* as a *mighty whole*, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from $5 to $5,000, or more, can be used successfully. N. Y. *Baptist Weekly*, September 26th, 1878, says: "By the combination system $15 would make $75, or 5 per cent; $50 pays $350, or 7 per cent; $100 makes $1,000, or 10 per cent on the stock, during the month, according to the market." *Frank Leslie's Illustrated Newspaper*, June 29th: "The Combination method of operating stocks is the most successful ever adopted." *New York Independent*, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co." *Brooklyn Journal*, April 29th: "Our editor made a net profit of $101 25 from $20 in one of Messrs. Lawrence & Co.'s combinations." New circular (mailed free) explains everything. Stocks and bonds wanted. Government bonds supplied. Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

ALEX. FROTHINGHAM & CO., BANKERS AND Stock Brokers, No. 12 Wall st., buy and sell stocks on the New York Stock Exchange and carry the same as long as desired on a deposit of three per cent. Careful attention given to orders for investment from $25 upwards in "Puts" and "Calls," which frequently pay from ten to twenty times the amount invested. Explanatory Circular and their Weekly Financial Report sent free on application.

$10 TO $500 All wishing to make money in stocks on Wall Street should deal with the undersigned.
Write for explanatory pamphlet, sent free by

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,
(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874, says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.
